

## ***SOUTH FEATHER WATER & POWER AGENCY***

---

**TO: Board of Directors**

**FROM: Kathy Petersen, Power Division Manager**

**DATE: September 18, 2007**

**RE: Power Division Surplus Equipment  
Agenda Item for 9/25/07 Board of Directors Meeting**

Over the years you have been asked to have various Power Division assets declared surplus in order that they may be disposed of – usually these were large items such as vehicles or generators that were sold by sealed-bid auction or, more recently, on Ebay.

For the past few months the Finance Division and Power Division staff have been working together to verify the list of assets that remain in service and on the books. This effort has produced a large list of items that are no longer in use and, because they were not recognized as assets that required Board action to declare them surplus, were typically disposed of as junk. Two exceptions on the attached list are as follows:

- 1) Item PWR-C82 is a 1997 Ford 350 truck with utility body (VIN 3FEHF36G4VMA34073) that was replaced this month and will be sold on Ebay, with your approval.
- 2) Item PWR-F203B is the original runner for Forbestown Powerhouse. It was replaced with a more efficient runner in 1989, but has been collecting rust on the deck of Forbestown Powerhouse until recently. If you approve, we will first offer it to the Forbestown Museum or, if they are not interested, we will sell it for scrap.

The total estimated value of the assets to be declared surplus is \$773,581. Once your questions have been answered, the recommended form of action is:

**“I move approval for the attached list of equipment to be declared surplus and removed from the list of Power Division assets; that the 1997 Ford 350 truck, VIN 3FEHF36G4VMA3407, be advertised on EBay and sold to the highest bidder in accordance with Policy #435; and, that the original Forbestown Powerhouse runner be offered to the Forbestown Museum, and if that offer is declined, that it be sold for its scrap value.”**
